

Inventory Management and ordering plugin

This is an exceptionally functional plugin that will assist with the ordering and management of inventory or finished goods. Access the inventory module via the category's menu or the product gallery.

The plugin delivers process improvement functionality for both end users and store administrators. From a storefront perspective ordering from a list view significantly speeds up the process; from an administrators perspective updating inventory levels is far easier than traditional methods.

Storefront View

Simplify the process of ordering inventory or finished goods

Inventory Management

Inventory Products: 12
Products Ordered:

Items Per Page: 10

Search for a Product

Product Name	Price	Stock Level	Unit

@Alex Dev	4329	AHS Lanyard			60	60	0	Pack (1 Pack = 500 Envelopes)

Key Features

- 1 Dynamic string search
- 2 Functional single line layout
- 3 Updated flag for ease of identification
- 4 Update on-shelf levels
- 5 Update safety levels

Plugin Cost: \$3,780

Annual Maintenance fee: \$680

Other Considerations:

1. This plugin will only function should you be using the Gexin dynamic theme plugin or a suitably coded custom skin.
2. Once purchased, and enabled, the plugin will work across any store utilising the appropriate skins.
