# Gexin dynamic theme plugin

The user-friendly design improves the user experience. The skin is clean, flexible, and responsive. The header, footer and body provide you the ability to customise your store. Using Gexin's dynamic theme you can configure much more. Using variables Gexin Dynamic Theme adds more content and customises your themes easier without requiring react development.

Adaptable customisation can be undertaken within the theme editor as well as the pre-established variable configuration.
